

VR-6515S/VR-7315S are the best choice for multi-function, high-efficiency, and fashion design.

Big LCD panel, easy to operate, A3 paper scan, A3 document feed, A3 paper printing. It is easy to satisfy various printing requirements and realize the best performance on pc-connected printing and topping printing.

Master eject capacity is easy for 50 sheets.

Innovative design of paper feeding by double rollers which is much stable. Simultaneously feed paper to guarantee one page input only once time.

With 130PPM fast printing speed, VR-6515S/7315S realize easy processing even for high-volume printing work. In addition, with multi-shift adjustment switches, VR-6515S/7315S adapt to different thickness of paper feeding.

100% strong production capacity
 Normally 1000 sheets paper-receiving capacity, even can reach 1500(70g/m²) sheets. Paper feeding tray can heap 1000sheets(70g/m²) at once during high-speed printing.

Precise paper feeding pressure adjustment
 realize excellent printing of various paper types, from 40g-128g/m². Three shifts pressure adjustment from thin paper to thick paper enhances reliability.

Simple operation

Error like paper jam etc. is easily found and understood through the control panel and solved by the new user.

File Mode	Input password	Original Size
Simple	0000	A4
Image Mode		Zoom Ratio
Text-Photo		
Image Density	0 1 R	
Standard		100%
Scan	Printed	3 Level
Standard		

More flexible and easier to control

Obvious operation control panel

The control panel is made up of LCD display on the left and easy-operated keys on the right, both are convenient for operation.

Upgraded management

Confidentiality mode, Consumable used-out reminder, The original scanning adjustment, Stencil length adjustment, Auto shut off, U-disk master making strengthen the working efficiency.

Technical innovation, achieve super printing

Enlargement/ Reduction functions

Confidentiality mode, Consumable used-out reminder, The original scanning adjustment, Stencil length adjustment, Auto shut off, U-disk master making strengthen the working efficiency.

Color printing

It can realize color printings by changing color drum, emphasizing on the special files. It brings a lot of benefit to save cost of color printing by 50% vs. other supplier as well.

Auto printing density adjustment

It is so humanized that it will adjust the printing density automatically, controlled by PCB process to keep stable output not affected by environment or print speed.

Auto shade elimination

This function eliminates the shade automatically when printing to keep the paper clear and clean.

Two in one function

This function easily and efficiently makes two originals to be printed in one page.

Superior drying device

Quick try to avoid back-penetration. The paper keeps clean to be available for double-side printing.

Super low cost

VR-6515S/7315S are cost-effective. It is more aggressive in features and low-cost. The more you print, the lower cost you incur, for consumable master and ink.

- Blue line: Copier printing time
- Red line: Digital duplicator printing time
- Green arrow: Recommend digital duplicator

Auto shade elimination

VR-6515S/7315S eliminate the shade automatically when printing to keep the paper clear and clean.
